## FOR IMMEDIATE RELEASE

### **Remembered Voices Partners with Plum Voice** *NH tech startup selects experienced IVR host*

KENSINGTON NH, April ##/da Vinci Group Inc. - After evaluating several vendors, [Remembered Voices](#), a unified phone and web service for the creation and management of voice recordings, is proud to announce the selection of Plum Voice, the leading single-source provider of Interactive Voice Response (IVR) solutions, as their interactive voice response (IVR) partner.

This partnership will enable Remembered Voices to provide an easily navigated phone menu for customers to record archival voice messages. The personalized service and around the clock engineering support will provide Remembered Voices customers with seamless and reliable phone menu navigation, regardless of their location or time of call.

Eric Peterson, CEO of Remembered Voices, states that "As an integral part of our product design, the IVR system contributes greatly to our unique product. We needed to partner with an expert in voice response who could also provide a reliable hosting platform and work closely with our developers. Plum Voice has met or exceeded all of our requirements."

Remembered Voices will offer their customers the option of creating recordings [by phone and online](#), while their selected friends and family can listen to the same recordings by phone and online. Remembered Voices is the first company to offer this type of service.

Al Brandano, President of Remembered Voices, adds that "After nearly six months of extensive research in phone technology and customer service reviews, Plum Voice stood out as the best option and value for a startup like us – especially with the explosive growth potential that we expect within our first year."

"The voice is a powerful thing, and with Plum Voice's dynamic VoiceXML IVR platform and hosted services, Remembered Voices is allowing loved ones to hear from their friends and family members, even uploaded recordings of those that are no longer with us--anytime," said Andrew Kuan, chief executive officer, Plum Voice. "Our technology is completely scalable, we have the ability to support the growth of a start-up like Remembered Voices or a Fortune 500 company."

#### **About Plum Voice** – <http://www.plumvoice.com>

Plum Voice delivers Interactive Voice Response software, systems, and expertise that companies of all sizes rely on to simplify their global communications and improve their customers' self-service experience. For businesses that demand high-performance, versatile, and scalable Interactive Voice Response, Plum Voice offers a combination of their own VoiceXML technology and complete professional services, delivering telephony automation solutions that enable companies to exceed their goals and streamline their processes.

#### **About Remembered Voices**

Remembered Voices is an audio archive service for creating and preserving voice recordings. Subscribers can create, manage, and share voice recordings by landline phone, cell phone, and online; their recordings are archived for the duration of their subscription. There is no degradation in sound quality, and recordings are accessible 24/7 through any touchtone phone, cell phone, or internet connection.
